It is resolved that the Board's appointment by cooptation of Mr Alfonso López Casas on April 17, 2008 be ratified and that he be reelected director of the Company for the five-year term set forth in the bylaws, effective on the date this resolution is passed.

II) To grant the Board of Directors the broadest and most sufficient powers provided for by law and in compliance with Article 153.1.b) of the Corporations Law, so that within a maximum term of five years from the date of the Shareholders Meeting, and without the need to call any additional meeting or seek additional authorization, the Board may implement one or various capital increases when the Board deems them warranted in the interest of the Company. The authorization granted herein includes the power to determine the terms and conditions of each capital increase and the characteristics of the shares, as well as the power to freely offer non-subscribed new shares within the term or terms for exercising preemptive rights, to amend the article in the Bylaws concerning share capital, and to take all measures to ensure that the new shares issued under the capital increase are admitted to trading on the stock exchanges on which the Company's shares are listed, in accordance with the procedures of each of those stock exchanges.

The maximum limit available at any time shall be deemed to include the amounts of any capital increases that, if warranted to cover the conversion of bonds or the exercise of newly-issued share warrants, may be implemented according to the resolution submitted at this same Shareholders Meeting as Item Three on the Agenda, or any future resolution that may replace it. The Board is likewise empowered to totally or partially exclude preemption rights in the terms set forth in Article 159.2 of the Corporations Law. With respect to convertible and/or exchangeable securities or warrants, this includes the power to establish the criteria for determining the bases and types of conversion, exchange or exercise. Delegation of powers to the Board of Directors to increase capital as required in order to cover conversion of the bonds or exercise of the warrants, as well as the power to exclude the preferential subscription rights of shareholders and holders of convertible bonds or warrants with respect to newly-issued shares.

I) To revoke any unexercised powers granted in the resolution passed as Item Seven on the Agenda at the Annual Shareholders Meeting of March 17, 2005, concerning the delegation of powers to issue convertible and/or exchangeable debentures, as well as warrants and other similar securities.

II) To delegate to the Board of Directors, in accordance with the general rules governing the issue of debentures, and pursuant to Article 319 of the Companies Registry Regulation and applying by analogy the provisions of Article 153.1.b) of the Corporations Law, the power to issue simple or convertible and/or exchangeable fixed-income securities and warrants, as well as promissory notes and preference participations in the following conditions:

1. Securities included in the issue. The securities envisioned in these delegated powers may be debentures, bonds and similar fixed-income securities, whether simple or convertible into newly-issued shares in the Company and/or outstanding Company shares. These delegated powers may likewise be used to issue debentures exchangeable for outstanding shares in another company, whether a Group company or not, to issue warrants (options to subscribe new shares in the Company or to acquire outstanding shares in the Company or in another company, whether a Group company or not, which may be liquidated by the physical delivery of the shares or, if applicable, by the difference) that may, if applicable, be linked or in some way related to each issue of debentures, bonds and other similar simple fixed-interest securities implemented under these delegated powers or with other securities or financial instruments that the Company recognizes and which constitute debt. The delegated powers may likewise be used to issue promissory notes or preference participations.
2. Term. One or several securities issues may be implemented at any time within a maximum term of five (5) years from the date of the adoption of this resolution.

3. Maximum value. The total maximum value of the securities issue or issues envisioned under these delegated powers shall be Two Thousand Million Euro (2,000,000,000 €) or its equivalent in another currency.

To calculate the limit specified above, in the case of warrants, the sum of the premiums and exercise price of the warrants in each issue approved under these delegated powers will be taken into account. In the case of promissory notes, with respect to the aforementioned limit the current balance of the promissory notes issued pursuant to these delegated powers will be computed.

It should be noted that pursuant to the provisions of Article 111 of Law 24/1988, of July 28 on the Securities Market, the limit set forth in Article 282.1 of the Corporations Law does not apply to Prisa.

4. Extent of the Delegated Powers. The powers delegated to the Board of Directors herein include, but are not limited to, determining the value of each issue (within the total maximum limit); the place of the issue (national or foreign); the currency and, in the case of foreign issues, the equivalence in euros; the type of securities whether they be bonds or debentures (including subordinated bonds), warrants (which may likewise be liquidated by means of the physical delivery of shares or, if applicable, by differences), promissory notes, preference participations or any other lawful securities; the issue date or dates; the number of securities and their face value; the interest rate, the dates and procedures for coupon payments; whether they are perpetual or redeemable and, with respect to the latter, the redemption term and maturity date; the type of reimbursement, premiums and lots, guarantees; how the securities will be represented, whether with certificates or as book entries; preemptive rights and, if applicable, subscription procedures; anti-dilution clauses; the ranking system and, if applicable, subordination; the applicable legislation; application to have the securities issued admitted to trading on secondary markets, whether official or non-official, organized or not, national or international, complying with the current legal requisites in each case; and, in general, any other condition of current or future legislation, as well as, if applicable, appointing a trustee and approving the basic rules governing the legal relations between the Company and the syndicate of the holders of the securities issued, in the event deemed necessary or it is decided to form a syndicate. With regard to each specific issue implemented by virtue of these delegated powers, the Board of Directors may determine any matter not addressed in this resolution.
5. Bases and types of conversion and/or exchange. In the event of issuing convertible and/or exchangeable debentures or bonds, the following criteria shall be used in determining the bases and types of conversion and/or exchange:
 - (i) The securities issued by virtue of this resolution shall be convertible into new shares in Prisa and/or exchangeable for outstanding shares in the Company, in any of the Group companies, or in any other company, at a determined or determinable conversion and/or exchange rate, the Board of Directors being empowered to determine whether they are convertible

and/or exchangeable, as well as deciding whether conversion and/or exchange is mandatory or voluntary, and if voluntary, whether it is at the option of the holder or issuer, and the intervals and term set forth in the resolution implementing the issue, which may not exceed fifteen (15) years from the date of issue.

- (ii) For convertible or exchangeable issues, the Board may determine that the issuer reserves the right at any time to choose between converting the securities into new shares or exchanging them for outstanding shares, defining the characteristics of the shares upon effecting the conversion or exchange, and being able to choose to deliver a combination of newly-issued and pre-existing shares or an amount in cash. In any case, the issuer shall afford equal treatment to all of the holders of fixed-interest securities that are converted and/or exchanged on the same date.
- (iii) For the purposes of conversion and/or exchange, the fixed-interest securities shall be valued at their face value and shares at the exchange rate determined in the resolution passed at the meeting of the Board of Directors in which use of these delegated powers is made, or at an exchange rate determinable on the date or dates indicated in the Board's resolution, based on the quotation of Prisa's shares on the stock market on the date(s) or for the period(s) used as a reference in that same resolution, if warranted, with a premium or discount applied to that price, and in any event, the minimum shall be the greater of either (a) the average of the average weighted prices of Prisa stock on the continuous market of the Spanish stock exchanges during the period to be determined by the Board of Directors, which shall not exceed three months nor be less than 15 calendar days prior to the date the Board adopts the resolution to issue the fixed-interest securities, or (b) the closing price of Prisa stock on the same continuous market on the trading day prior to adopting the aforementioned issue resolution. The Board may determine that the valuation of the stock for the purpose of conversion and/or exchange may be different for each conversion and/or exchange date. In the case of exchanges for shares in another company (whether a Group company or not), if warranted and with the necessary adjustments, the same rules shall apply with regard to the quotation of those shares on the corresponding market.
- (iv) In the conversions and/or exchanges, fractions of shares to be delivered to securities holders shall by default be rounded down to the nearest whole number, and each holder will receive any difference in cash.
- (iv) In converting debentures into shares, in no event may the value of the share be less than its face value. Pursuant to Article 292.3 of the Corporations Law, debentures may not be converted into shares when the value of the former is less than the value of the latter. Neither may convertible debentures be issued for an amount less than their face value.

When approving an issue of convertible debentures pursuant to the powers conferred upon the Board of Directors at the shareholders meeting, based on the aforementioned criteria the Board shall issue a directors' report detailing the specific bases and types of conversion applicable to the issue in question. This report shall be accompanied by a corresponding report issued by the company auditors, as provided in Article 292 of the Corporations Law.

6. Bases and types of exercise applying to warrants. In the event of issuing warrants convertible and/or exchangeable for shares, to which by analogy the provisions of the Corporations Law governing convertible debentures shall apply, the following criteria shall be used to determine the bases and types of exercise:
 - (i) Warrants issued by virtue of this resolution may grant the right to subscribe new shares issued by the Company or to acquire outstanding stock in Prisa or in another company, whether a member of the Group or not, or a combination of any of the above. In any event, when the warrants are exercised the Company may reserve the right to deliver new shares, outstanding shares, or a combination of the two, as well as liquidating any differences.
 - (ii) The term for exercising warrants shall be determined by the Board of Directors, and may not exceed fifteen (15) years from the date of issue.
 - (iii) The exercise price for warrants may be fixed or variable, depending on the date(s) or period(s) taken as a reference. In that regard, the price shall be determined by the Board of Directors at the time of issue or shall be determinable at a subsequent time based on criteria set forth in the resolution itself. In any event, the share price in question may not be less than the greater of either (i) the average of the average weighted prices of Prisa stock on the Spanish stock exchanges during the period to be determined by the Board of Directors, which shall not exceed three months nor be less than fifteen calendar days prior to the Board's adoption of the issue resolution, or (ii) the closing price of Prisa stock on the same continuous market on the trading day prior to adopting the aforementioned issue resolution. In the case of call options on already-existing shares in another company (whether a Group company or not), if warranted and with the necessary adjustments, the same rules shall apply with regard to the quotation of shares in that company on the corresponding market.
 - (iv) When warrants are issued at a simple or at an at par exchange (one share per warrant), the sum of the premium or premiums paid for each warrant and its exercise price may never be less than the value of the underlying share considered in accordance with the provisions of section (iii) above, nor less than its face value.

When warrants are issued with a multiple exchange (at a rate other than one share per warrant), the sum of the premium or premiums paid for all warrants issued and their aggregate exercise price may never be less than the result of multiplying the number of shares underlying the total number of warrants issued by the value of the underlying share considered in accordance with the provisions of section (iii) above, nor less than their total face value at the time of the issue.

When approving an issue of warrants pursuant to the powers conferred herein, based on the criteria set forth above the Board of Directors shall issue a report detailing the bases and types of exercise specifically applicable to the issue in question. This report shall be accompanied by a corresponding report issued by the company auditors, as provided in Article 292.2 of the Corporations Law.

7. Rights of the holders of convertible securities. Until it is possible to convert and/or exchange the fixed-interest securities issued for shares or to exercise of warrants, their holders shall have all rights recognized them in current legislation and particularly, where applicable, those concerning preemptive rights (in the case of convertible debentures or warrants on newly-issued shares) and anti-dilution clauses where legally provided, unless the shareholders or the Board of Directors decide, pursuant to the terms and requisites of Article 159 of the current Corporations Law, to totally or partially exclude the preemptive rights of the shareholders and the holders of convertible debentures and warrants on newly-issued shares.
8. Capital increases and the exclusion of preemptive rights with respect to convertible securities. The powers conferred on the Board of Directors likewise include, but are not limited to, the following:
 - (i) Pursuant to Article 159 of the Corporations Law, the power of the Board of Directors to totally or partially exclude the preemptive rights of shareholders and of holders of convertible debentures and, if applicable, holders of warrants on newly-issued shares when, within the framework of a new issue this becomes advisable in order to capture financial resources on international markets, to use bookbuilding techniques, to facilitate the entry of industrial or financial investors who may contribute to creating value and meeting the Groups strategic objectives, or for any other reason justified in the interests of the Company. In any event, if the Board decides to exclude preemption rights with respect to a specific issue of convertible debentures or warrants that it may issue by virtue of these delegated powers, upon approving the issue and pursuant to applicable legislation the Board shall issue a report explaining the specific company interests that justify that measure, which shall likewise be the object of a corresponding report from the company auditors to which Article 159.2 of the Corporations Law refers. Those reports shall be made available to shareholders and to the holders of convertible debentures and warrants on newly-issued shares and announced at the first shareholders meeting held subsequent to the issue resolution.

- (ii) The power to increase capital as necessary to cover applications for conversion of the exercise of warrants on newly-issued shares. The Board may only exercise this power if the capital increases passed to cover the issue of convertible debentures or the exercise of warrants and any other capital increases that may have been approved by virtue of powers granted by the shareholders do not exceed the limit of one half of the amount of the Company's total share capital, pursuant to Article 153.1 b) of the Corporations Law. This authorization to increase share capital includes the power to implement one or several share issues necessary to cover the conversion or exercise of warrants, as well as to amend the company bylaws concerning share capital and, if required, the power to revoke any part of the capital increase not needed for the conversion into shares or exercise of warrants.
- (iii) The power to specify and determine the bases and types of conversion and/or exchange, taking into account the criteria set forth in sections 5 and 6 above including, among others, determining the time for conversion and/or exchange or the exercise of warrants and, in general and in the broadest of terms, establishing any details or conditions necessary or advisable for each issue.

At subsequent Shareholders Meetings the Board of Directors shall inform shareholders of any powers delegated herein that it may have exercised at that time.

9. Admission to trading. Where applicable, the Company shall apply to have the debentures, bonds, preference participations, warrants and any other securities issued by virtue of these delegated powers admitted to trading on secondary markets, whether organized or not, official or nonofficial, national or international, the Board being authorized to take any measures necessary with the competent national and international securities markets authorities to ensure that they are admitted to trading.
10. Guarantee of fixed-interest securities. Within a term of five years the Board of Directors is equally authorized to guarantee on behalf of the Company and within the limit set forth above, issues of fixed-interest securities, whether convertible and/or exchangeable, including warrants, as well as promissory notes and preference participations that may be made by companies belonging to Grupo Prisa.
11. Sustitution: The Board of Directors is expressly authorized to grant to the Executive Committee, the Chairman, or the Chief Executive Officer any delegable powers granted the Board herein.”
